

Andrzej Lis

Senior Software Engineer | Java / Kotlin Backend

Krakow, Poland | andrzej.lis3@gmail.com | +48 791 330 821 | github.com/lisu188 | linkedin.com/in/andrzej-lis-1b4830a6/

PROFILE

Hands-on software engineer with 12+ years of experience building and maintaining enterprise backend systems. Strong Java/Kotlin focus with Spring, messaging, relational/document databases, CI/CD, system design and technical leadership. Experience spans telecom, airline systems and Google Fiber.

CORE SKILLS

Languages: Java (5-8), Kotlin, C++11, JavaScript **Backend:** Spring Boot, Spring Framework, Hibernate **Messaging:** Kafka, JMS/ActiveMQ, WebSocket

Data: Oracle, MongoDB, PostgreSQL **Delivery:** Maven, Gradle, TeamCity, Jenkins, Git **Leadership:** mentoring, technical guidance, staffing/resource management

PROFESSIONAL EXPERIENCE

Lead Software Engineer / Resource Manager

EPAM Systems - client: Google / Google Fiber | Aug 2020 - Present

- Own feature design and implementation in a large internal Java codebase; collaborate with client technical lead and stakeholders.

- Lead a small delivery team, track progress/risks, and support coaching and staffing across the engagement.

Tech: Java 8, PromiseGraph, Flume, Piper, Critique, Blaze

Team Leader / Scrum Master / Software Engineer

Sabre | Jan 2019 - Jul 2020

- Designed and developed a training module as a microservice with Kafka-based communication.

- Delivered backend features, coordinated across teams, mentored engineers and supported predictable delivery.

Tech: Java 8, Spring Boot, Spring 4, Kafka, Maven, Gradle, TeamCity, Oracle, MongoDB

Software Engineer

j-labs - client: Sabre / Crew Manager | Feb 2017 - Dec 2018

- Delivered Spring/JMS backend functionality, including forwarding database transaction snapshots as JMS messages.

- Led CI/CD improvements that reduced build times from about 2 hours to about 30 minutes; built monitoring and failure-diagnostics tooling.

Tech: Java 8, Spring, Hibernate, JMS/ActiveMQ, Maven, Gradle, TeamCity, Oracle, MongoDB

Software Engineer

j-labs - client: Sabre / AirCrews | Apr 2015 - Jan 2017

- Developed features in a legacy Java/C++ crewing system, implemented APIS extensions and became technical owner of an ESB component.

- Migrated repositories from SVN to Git and supported team adoption.

Tech: Java 5-7, Swing, C++11, WebLogic, TeamCity, Oracle

Software Engineer

Motorola Solutions | Aug 2013 - Mar 2015

- Implemented features across Java/JEE backend and UI components; ported Java WebStart UI from Unix to Windows.

- Implemented JMS/WebSocket communication between JavaScript UI and Java backend services.

Tech: Java 7, Java/JEE, JavaFX, JavaScript, Jenkins, PostgreSQL

EDUCATION

AGH University of Krakow - B.Eng. (Engineer), Computer Science | 2014-2019

Thesis: User identification based on signature dynamics
